FORTACO - THE STRATEGIC PARTNER

We combine our specialized technology competences and profound industrial understanding to meet our customers' needs.

We offer attractive manufacturing capabilities, we have the willingness and ability to shape the technology and industry offering, and a wide range of products to be the preferred Tier 0.5 partner.

We benchmark ourselves to the automotive industry and standards to secure maximized value add for our customers as a true Tier 0.5 partner. We have the right quality, the right delivery accuracy and the right price.

OUR OFFERING – FROM CONCEPT TO MANUFACTURING

Fortaco Technology

Your preferred partner from concept to manufacturing, combining knowledge with digitalization. We are the preferred partner in product development and manufacturing technology. We are supporting our customers with product concepts, new materials, product design, manufacturing technology and new product implementation.

Fortaco Buisard Cabins

Our offering covers completely assembled plug & play vehicle cabins, and high-volume operator cabins for agriculture applications. Product development is focusing on driver safety, comfort and ergonomics. Safety cabins for the Indian market are manufactured by Tata AutoComp. We combine TATA's premium capabilities with Fortaco's knowledge in design and manufacturing technology.

Fortaco Assembly

Your turnkey supplier from module to final assemblies in the off-highway and marine industry. We take the full ownership of our customers' assembly operations. Our offering includes a broad range of assembly services and we are proactively identifying technologies to increase productivity.

Fortaco Steel Fabrication

Your manufacturing partner transforming steel into state-of-the-art products to the off-highway and marine industries. Design-to-Manufacturing advisory and automatized manufacturing processes ensure that your component meets the highest requirements on quality and price.
