FORTACO**

FROM CONCEPT TO MANUFACTURING

Technology

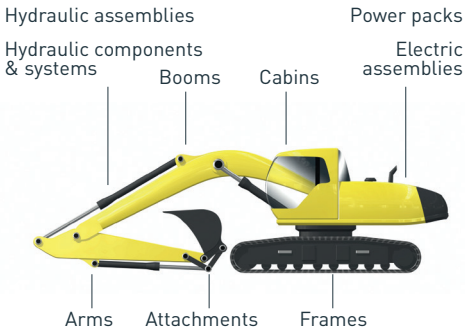

Fortaco supports customers in the various stages of product lifetime. We research state of the art manufacturing techniques, design best-in-class operator cabins, provide Design-to-Manufacturing advisory in new product implementation. We develop new technologies in the areas of fossil-free steel, light-weight components, battery cages, circular economy, and E-mobility.

Vehicle Cabins

We support our customers in creating optimal solutions which are tailored to their applications. Our offering includes completely assembled plug & play and high-volume vehicle cabins. We provide product development and new product implementation services with design concepts, engineered solutions, industrialization and customized manufacturing services. We have over 80 years of experience in vehicle cabin manufacturing.

Scope of items

Excavator as an example

Assembly

Fortaco Assembly offers a unique opportunity for tailor-made supply chain solutions. We are looking for alternative sourcing and outsourcing solutions for assembly operations in the growing industries. Complete vehicle assemblies and module assemblies take this step one step further. We have a lifetime service and after-sales service for spare parts.

Steel Fabrication

Fortaco's Steel Fabrication value chain starts with purchased steel plate material, cutting, welding and CNC-machining, including painting and module assembly. Advanced welded components belong to our product range. Quality and delivery performance are our focus areas. Based on a long history in steel processing, we have established ourselves as an industry benchmark.

Scope of manufacturing

SAFETY & QUALITY

Our commitments

390+
Net sales (MEUR)

80.000
Tons of steel

60+
Welding robots

2800+
Employees globally

FIELDS OF EXPERTISE

**Agriculture • Construction Equipment • Container Handling
 Defense • Forestry • Marine, Energy, Offshore
 Material Handling • Mining • Recycling**
